

REMARKS/ARGUMENTS

Specification

The title has been amended to reflect the nature of the presently claimed invention. No new matter has been added by way of this amendment.

Applicant submits that the title of invention listed on the issue fee transmittal is incorrect and requests correction. The title listed on the issue fee transmittal is: "Human Monoclonal Antibodies Against the Islet Cell AntigenA IA-2". First, the title is missing the word "directed" before the word "against", as recited in the original title. Applicant notes that the present Amendment requests deletion of the words "directed against" and substitution of the word "to" in their place. Second, there is a typo in the title for which Applicant requests correction. The issue fee transmittal includes the word "AntigenA" in the title. The correct word should be "Antigen", not AntigenA". Applicant respectfully requests correction of the title.

Conclusion

The Commissioner is hereby authorized to charge payment of any fees required in connection with the papers transmitted herewith to Deposit Account No. 13-2490. If the Examiner has any questions regarding this Amendment, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,
McDonnell Boehnen Hulbert & Berghoff LLP
